Mobile Cabinets: focus on saving space

Kasten mobile cabinets have many advantages over fixed cabinets in terms of efficient utilisation of space. Only one access aisle is needed. The mobile units can be moved singly or together, to create an aisle where access is required.

With floor space at a premium cost, the extra room gained can be utilised for more storage, or to create an extra workstation.

Vario mobile shelving is a product in the category

Mobile Cabinets

Description

The design of your offices is a reflection of your personal taste and corporate image. A design that is perfectly integrated in the total office concept.

VARIO-mobile has an own installation floor system:

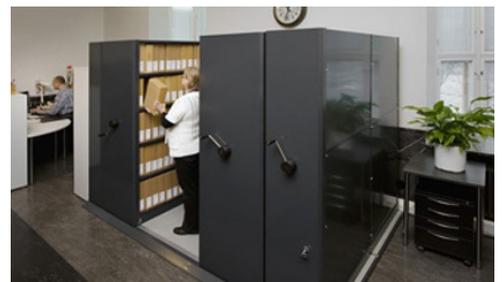

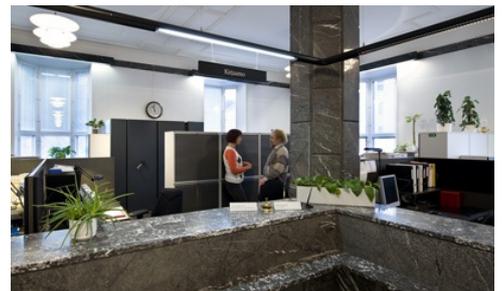

- not needed to fix in concrete
- easy to change lay-out

Modular system:

- easy to change lay-out
- easy installation
- Focus on integration

The specially designed front panels can be finished in different colours, materials and designs, to blend in with your office interior.

Mobile Cabinets > Vario mobile shelving

Products

Focus on space efficiency

- Create space for an extra work unit.
- Or almost double the storage capacity.

Focus on design and user friendliness

• The specially designed front panels and floor panels can be finished enabling you to create the atmosphere you prefer: in steel or MDF in a choice of colours or wood designs.

- Double-sided access makes the system highly accessible, which is ideal for shared storage and use in open offices.
- Use the lower version to increase a sense of openness.
- Stylish and ergonomic hand wheel or hand grip

Focus on security

- Central lock - the whole cabinet system is locked in only one action.
- Double doors, to lock a number of bays

Focus on quality and sustainability

- High construction quality and perfect finish.
- Complies with standards such SFS 5187
- Produced according to ISO 9001
